Subject: ? Report on Mitsubishi Meeting Results Jae In Lee, Marketing) Marketing Group, Samsung SDI

Title: Report on the Mitsubishi Meeting Results

For your information, the following is a report on the results of the Mitsubishi meeting.

1. Date: March 3, 2003 16:00-17:00 (17th Floor SDI conference room)
2. Attendees: SDI – Deok Yeon Kim, Eui-sub Cho, Jae-in Lee
Mitsubishi – Nakashima, Katou (Koshida-tech)
3. Contents of Meeting
 - 1) Purpose of the Visit
 - (1) Explanation on the shutdown of Mitsubishi Mexico 17" Line → discussed the possible sales of Mexico line to SDI
 - (2) To get SDI's opinion prior to price negotiations with Samsung Electronics
 - (3) CDT price maintenance
 - (4) To transfer Mitsubishi's customers to SDI due to the discontinuation of 17" CDT, on the reverse side, expansion of 21" CDT business by Mitsubishi following the stoppage of 21" CDT business at SDI.
 - 2) Main points of discussion
 - Schedule of Mitsubishi Mexico 17" CDT business discontinuation
 - Production discontinuation: June 2003
 - Sales discontinuation: September 2003

SDCRT-0006041E_Translation

- Opinion about transferring Mitsubishi's 17" CDT customers to SDI
 - ➔ Basically, transfer Mitsubishi's current customers to SDI, and for Samsung to prepare the necessary SPEC and to give to Mitsubishi: then Mitsubishi will contact its customers during March and will report on the final results in April during another visit
- Whether SDI is willing to stop the 21" CDT business and hand the 21" volume to Mitsubishi?
 - ➔ SDI 21" is currently making a profit, and if it stops the business, the factory in Suwon will suffer. Furthermore, the Chassis are basically different so there will be a problem with PIN to PIN compatibility, therefore the transfer of SDI's 21" CDT biz is impossible.
- Mitsubishi's development of 22" Flat low end model for SEC (Uni Pitch ➔ Variable Pitch)
 - ➔ Current price for Mitsubishi 22" Uni Pitch model is \$200-210, selling about 1K/month to SEC. However, with the development of "Variable Pitch," will be able to reduce price down to \$180 which is the same price as SDI, and requests SEC to transfer the 11K/month (FST 8K, DF 3K) volume which SDI is currently supplying to SEC to Mitsubishi's NF Type.
 - ➔ Need to prevent Mitsubishi NF's entrance into SEC through innovative cost reduction and quality/ grade improvement

=====

3) Important information

- Mitsubishi Mexico Factory Status
 - [Production: 2,000,000/year (1.2-1.300,000 Demand from China)
 - [Models: 17" NF (300cd), M2 (500cd, Major item), VF (450cd, Philips, Lite-[on, etc for specific customers)
 - [VF models recently started for cost reduction (M2-2\$)
 - [Employees: 1,200 people (lay off through provision of an "Extra Charge")
- Regarding equipment sales: currently under discussion with certain companies regarding CRT "sale of CRT equipment"
 - ➔ Decision re Line shut down was made suddenly, thus, no prior discussion re sale of equipment, but currently under progress
- Japan Production Status: one Line in operation (19" / 22" compatible)
 - [19": 600K/year
 - [22": 400K/year
- Sony dropping 21" CDT business: Rumor that it is highly likely that Sony would drop its CDT business as it stops 21" CDT business within the year of 2003.
 - ➔ Mitsubishi intends to conquer the 21"/22" CDT through the development of 22" cost reduction model while keeping SDI's FST/DF in check.
